Nokia Extra Power DC-8 Product Sheet

Product Overview

- The pocket-size back-up power enables charging of your compatible mobile device battery on the move. Use your Nokia Extra Power DC-8 with battery or rechargeable battery that you can recharge with your compatible Nokia charger.

Key Features

- Small size and streamlined design
- Easy to carry around and use even while having a call
- Automatic start-up when device is connected
- Can use both rechargeable and non-rechargeable AA size battery
- Automatically detects which type of battery is inserted
- Rechargeable battery can be charged with standard Nokia chargers (2.0mm interface and 3.5mm interface with CA-44)
- Provides power for about one phone charge
- Two indicator LEDs

Key Selling Points

- Peace of mind, especially for mobile device heavy-users
- Power for situations when there is no access to electricity or compatible charger
- Power for the unexpected situations with high efficiency
- Suitable for charging compatible enhancements like headsets and speakers as well
- High quality adds reliability
- Sustainable and low cost use with rechargeable battery
